

Access to Education is Fundamental Right of All

Quraan / Hadith:

According to the saying of the Holy Prophet(PBUH), the up-bringing of children is a need: show of affection and love to them makes us close to Allah.

With your help, I can go to school and My life can change for the better.

I am looking forward to a helping hand in order to make me a respectable citizen; and my pleasure itself will be a 'Dua' (prayer) for you.

Our Objectives/ Facilities:

- Providing free education to orphans and neglected children
- Providing quality education
- Providing education based on 'wherever and whosoever they are' basis
- Paying school fees
- Providing uniforms
- Provision of free books
- Provision of free Stationery
- Provision of pick-and-drop facility
- Provision of Health and Sports

Future Programmes:

The organization is currently providing free education facilities to the deserving children on the basis of 'wherever and whosoever they are'. However, the organization is making all-out efforts to establish its own schools for the deserving children, where the hostel facility would also be available. The organization also aims at hiring buses for pick-and-drop of the children. For the fulfilment of this great task, your cooperation is very much needed. Please come forward and join us in the noble cause. Smile on thousands of faces awaits you eagerly.

Piteous Story of a Family

I "Hassan Fiyaz" was residing in Wassan pura with my family. My father used to drive a donkey cart, which was the source for earning in life. I was a student in a government school. Life for our family was miserable. My father would drive the donkey cart throughout the day and this was the only means of our both ends making. It is said that troubles and hardships are like

uninvited guests. One day, my father, as usual went to his work but God had some other plans for him. While carrying a heavy machine to the roof of the factory, my father had his backbone and leg broken. This accident changed the already bad condition of my family into worse. We lost all hope of survival and stood face to face with starvation. Realizing the critical times ahead, I started working at a tea stall, and my mother, who is dumb and deaf, started working in a factory. Meanwhile, my father lost his life due to unavailability of money for his proper medical treatment. Life had taken a horrible turn at his juncture.

Then there came the moment, still fresh in my memory, which gave life a new direction. It was Thursday and I reached at the tea stall in the morning, where a boy had been waiting to see me. He wanted to know about me and I thought that he was ridiculing my poor condition, but it turned out to be altogether different. He was like an angel sent by God, who had descended on earth in the guise of a human being. He admitted me, my bother and sisters to the Madina-tul-Ilm Cadet School and provided with us new shoes, uniforms and books.

Though I had heard that dreams were realized, yet I never thought that this could happen so soon. Now, we have found the aim of our life. May Allah enable me to contribute whatever I can to the SAVE the deserving children so that I can prove a support to the children like myself (Aameen).

Alhamdulillah

SAVE the deserving children' is providing free and continuous quality education. 'SAVE the deserving children' is providing free education to orphans and neglected children "on the basis of wherever they are and whosoever they are" in the nearby private quality schools, 'SAVE the deserving children' is on its way to produce respectable, civilized and literate citizens in the society. So far the organization has been successful in this mission. The avowed aim of the 'SAVE the deserving children' is to make the children respectable and talented human beings of the times ahead.

The creation of good citizenship through education is important

Because

"An educated person can help to accelerate the development and success of a country and nation." (Quaid-i-Azam)

"The Organization has appointed 'Social Organizers' to bring about improvement in children's education. These organizers remain well aware of their progress. Besides, the Organization has its own Social Mobilizers, who mobilize the children and the teachers, help them make up their deficiencies, infuse a new spirit into them and rid them of their sense of deprivation. The Organization is providing education with continuity to the children of age group 3 to 16 years.

Total Monthly expense per child is **Rs. 2500**

Total Annual expense per child is **Rs. 30,000**

**How many children can you help?
You can bear the monthly or annual expenses of a child.**
